SKILLS SUMMARY

- **Languages** Python, C, C++, HTML, DAX, SQL
- **Tools** Git, Power BI, VS Code, Power Automate, SQL Server Management Studio
- **Technologies/Frameworks** Spark, Azure Databricks, Azure Synapse, Azure Data Factory, Azure Data Lake, Microsoft Fabric, Tabular Model, SQL Server, CI/CD, Azure DevOps, GitHub

EXPERIENCE

- **Celebal Technologies** Noida, India
Software Engineer May 2025 - Current
 - Migrated **SAP HANA calculation views** to Databricks (DBX) scripts, ensuring **data parity** through rigorous validation against HANA source systems.
 - Designed and orchestrated **automated Databricks workflows** across multiple job groups, enabling **reliable end-to-end data refreshes** and faster issue resolution.
 - Built **Silver Delta tables** using full data loads from HANA and integrated **Kafka-based Delta streams** to support efficient incremental processing.
 - Managed **role-based access control (RBAC)** for SAP HANA objects, ensuring secure and governed data access.
 - Migrated legacy **Hadoop-based scripts** to Databricks Runtime (DBR), validating **performance improvements and output consistency** post-migration.
 - Developed and optimized **Gold-layer transformation logic** for key business domains including **Sales, Conversion, and Expense**, improving data availability for analytics.
 - Centralized transformation logic by migrating **Tableau report logic to Databricks**, enabling direct consumption of curated datasets and enhancing **performance, scalability, and data governance**.
- **MAQ Software** Noida, India
Software Engineer (Promoted from Associate Software Engineer) Jan 2023 - May 2025
 - Migrated **data pipelines by eliminating an intermediate server**, enabling **real-time data availability and reducing latency by 3 hours**.
 - Built and optimized ETL pipelines using Azure Databricks and Apache Spark, improving data processing efficiency by 50–60%.
 - Developed and optimized Power BI dashboards, driving business decisions and contributing to up to 65% cost reduction.
 - Reduced report load time (PLT) by 70–80%, significantly improving user experience and performance.
 - Designed and published 10+ reports, reducing manual data analysis effort by 60%.
 - Implemented logging and monitoring frameworks in Spark, enhancing pipeline observability and troubleshooting.
 - Collaborated on QA, code reviews, and training, improving team productivity and onboarding efficiency.

EDUCATION

- **G.L. Bajaj Institute Of Technology and Management** Greater Noida, India
B.Tech in Computer Science Engineering; CGPA: 8.47 Aug 2019 - Jun 2023

PERSONAL PROJECTS

- **Demographic Data Analyzer** [!\[\]\(e40bb48ad1470e3a14017c64c5673877_img.jpg\)](#) | *Python, Here API, Flask, Machine Learning*
 - Developed a machine learning project, to help businesses select optimal outlet locations by analyzing factors like amenities, budget, and proximity.
 - Improved decision-making efficiency by 20% using real-world datasets and data visualization techniques.
 - Simplified the process of identifying ideal business locations, contributing to a projected 15% increase in performance and profitability.
 - Collaborated with team of 3 students, impacting over 10 users during testing and validation phases.

CERTIFICATION

Microsoft Certified: Fabric Analytics Engineer Associate [!\[\]\(d3102649f02e825ddb76dc3de0190154_img.jpg\)](#)*, Fabric Data Engineer Associate [!\[\]\(55ca3a38dbb940110628e54e3ea7505d_img.jpg\)](#)*, Azure Developer Associate [!\[\]\(1ad7b9dfa1e10e48660df5dd18a1b20c_img.jpg\)](#)*

Databricks Certified: Data Engineer Associate [!\[\]\(4b7a79268f6ba26c1471d4232fffa85a_img.jpg\)](#)*, Data Engineer Professional [!\[\]\(87d978583253c9bde1db2d6dfafe8de0_img.jpg\)](#)*

ACHIEVEMENTS

- Received client appreciation for resolving production issues in minimal time, leading to a smooth-running ETL process.
- Received appreciation from my reporting senior for assisting my juniors with their tasks, leading to a smooth onboarding process into the team.
